

WHAT SIZED NEWLY-BUILT RABBIT CAGES ARE REQUIRED?

-  Must permit all rabbits to adopt ventral and lateral resting postures, groom, adjust their posture, turn around without obstruction, and move about within the cage/pen.
-  Must permit all rabbits to sit upright with their ears fully erect without touching the top of the enclosure.
-  Must permit all rabbits in groups to rest on the enclosure floor at the same time, if evenly distributed.
-  The cages must be made of suitable material for rabbits and include proper drainage on the floor.

Grooming

Sitting upright with ears erect

Resting in groups

	A	B	C
MATURE BUCKS (i.e. >16 weeks of age)	45 cm (17.7 in)	60 cm (23.6 in)	0.46 m ² (4.95 ft ²)
REPLACEMENT BUCKS (i.e. 12-16 weeks of age)	40 cm (15.7 in)		0.125 m ² (1.35 ft ²)
DOE WITH KITS younger than 21 days of age			0.36 m ² (3.88 ft ²)
DOE WITH KITS older than 21 days of age or MATURE DOE (i.e. >5kg [11lb]) without kits			0.46 m ² (4.95 ft ²)
REPLACEMENT DOE older than 12 weeks of age			0.125 m ² (1.35 ft ²)/doe MUST NOT EXCEED 5 kg/0.125m ² (11 lb/1.3 ft ²)
GROWING RABBITS			0.0625 m ² (0.67 ft ²)/growing rabbit MUST NOT EXCEED 40 kg/m ² (8.2 lb/ft ²)
